

In Memory of
Sienna Rose
Caballero

Feb 03,2009- Jan 20,2012

We are deeply saddened by the loss of our beautiful angel on earth. Born with Down Syndrome, Sienna didn't let anything get in her way of growing, thriving and learning. She was a ray of sunshine and had a smile that lit up a room. A bundle of joy, love and happiness is what she shared with us each day.

Sienna started Early Intervention at three months of age and began preschool at 2 ½. She enjoyed going to school and was loved by all of her family, friends and teachers. Sienna was also quite the seasoned traveler. She vacationed in San Juan and toured the cities of Boston, Sedona and Phoenix. She saw the majestic Grand Canyon, rode the trolleys throughout San Francisco and, even escaped from Alcatraz.

Sienna loved dining at great restaurants, staying in wonderful hotels and was never afraid to try something exciting and new.

Sienna's involvement with Alexander's Angels helped further the awareness and needs of children with Down Syndrome everywhere. Each year she led her family and friends through Buddy Walks. Her team "Sienna's Heart" helped raise several thousands of dollars for children everywhere.

Always in our hearts and forever loved.
